

## Information for Senior Citizens

**As a senior citizen, how do I get a new DC driver's license or non-driver's ID?**

***If you are at least 70 years old:***

Please come to the Medical Review Office, 301 C Street NW, Room 1033, to apply for your license. You will be required to complete a driver's license application, and to show documents proving your name and date of birth, social security number, and current residency. Please bring your current license if you have one. You may also need to submit additional DC DMV medical reports completed by your physician.

To get the application and medical report and review a list of acceptable documents before coming to DC DMV, please call Customer Service (202) 727-5000, or visit our website, [www.dmv.dcgov.org](http://www.dmv.dcgov.org).

Your physician will need to sign your driver's license application, attesting that you are mentally and physically able to drive safely. If your doctor notes a medical disability on your application, you will also need to have your doctor complete the DC DMV medical report.

**How do I renew my DC driver's license?**

***If you are at least 70 years old:***

Your physician will need to sign the renewal form, which DC DMV will send to your address of record. If you have not received a renewal form by mail and your license will soon expire, you may pick up a form at 301 C Street, or by calling DC DMV Customer Service or visiting our web site.

Please bring your completed form to the Medical Review Office. **We require that you appear in person to renew.**

At age 75 or the next time you need to renew, and on each subsequent renewal date, you may be required to successfully complete the written test and/or road test in addition to resubmitting a physician-signed renewal form. You may also be required to complete a test of your reaction time.

The license renewal fee is \$20 for 4 years.
